RESOURCE DIRECTORY

Serving people & their families living with ALS in Georgia

ALS UNITED OF GEORGIA

888-636-9940

www.alsgeorgia.org

Our mission is to enhance the lives of Georgians living with ALS and their families by providing personalized care services, fostering a supportive community, and advancing research focused on treatments and a cure.

We are pleased to provide you with this Resource Directory which serves the ALS Community in Georgia. It is a resource containing reliable information on services and resources available for the care and support of people living with ALS in our community. It is designed as a “One Stop” tool to assist the ALS Community and their caregivers to find necessary services and helpful advice.

WE HOPE YOU AND YOUR FAMILY FIND THE INFORMATION IN THE RESOURCE DIRECTORY USEFUL IN MEETING YOUR NEEDS.

ALS UNITED OF GEORGIA - PROGRAMS AND SERVICES

ALS United of Georgia has a dedicated Care Services Team whose goal is to meet every individual diagnosed with ALS, and their families, as soon as possible. Our goal is to ensure individuals and families understand their ALS diagnosis and focus on meeting needs that will optimize and enhance their quality of life. Upon registering with ALS United of Georgia, a Care Services Coordinator is personally assigned to you who will assist throughout your journey, answering questions and providing resources to help meet your needs. With this focus in mind, the following programs have been created to positively impact families living with ALS: **The Kostiuk ALS Care Grant Program, Support Groups & Education, The Ricky P. Sweat ALS Equipment Loaner & Assistive Technology Program, The Paul B. Williams Transportation Program, and The Sally Panfel In-Home Care & Respite Program.**

Individuals who are newly diagnosed often need time to absorb the impact of their diagnosis, and basic information and education are immediately provided. This information includes, but is not limited to, the diagnosis itself, the disease trajectory, support, and ongoing research. ALS United of Georgia provides an annual educational Symposium which highlights the research, support and education opportunities to people living with ALS, Community Providers, Caregivers and Supporters. Although to date there is no cure for this disease, we are passionate about the mission of one day finding a treatment and ultimately a cure.

THE KOSTIUK ALS CARE GRANT PROGRAM: The financial hardship that families incur as the result of an ALS diagnosis can impact their quality of life tremendously. For those that may need additional help, **The Kostiuk ALS Care Grant Program** strives to provide some relief. This program is a reimbursement program that assists families with expenses that are not traditionally covered by private insurance, Medicaid, or Medicare. It will cover expenses related to home care assistance, travel costs for attendance to and from an ALS Clinic, home modifications, auto modifications, communication devices, and more. Registered families are eligible to apply for the Kostiuk ALS Care Grant Program annually. Award opportunities are based upon funding.

The Support Group Program provides individuals with ALS and their families the opportunity to connect with others in the community who share similar challenges and needs. The groups are designed to provide emotional and psychosocial support, as well as resources and education. Knowing what questions to ask and where to look for resources is vital. ALS United of Georgia currently hosts a variety of support groups that meet monthly or quarterly throughout the state of Georgia. These groups are facilitated by professionals and community partners to ensure maximum results.

THE RICKY P. SWEAT ALS EQUIPMENT LOANER & ASSISTIVE TECHNOLOGY PROGRAM: As ALS progresses, individuals will experience a decline in functioning as it relates to mobility and speech. These challenges can impact independence and quality of life. In some situations, specific medical and communication devices are required but not covered by private insurance, Medicaid, or Medicare. **The Ricky P. Sweat ALS Equipment Loaner & Assistive Technology Program** provides such equipment to individuals with ALS, at no cost. This program works diligently to obtain, through grant funding or private donations, such items that can ensure increased independence. ALS United of Georgia, in partnership with community providers, collaborate on the maintenance and storage of all equipment.

THE SALLY PANFEL ALS IN-HOME CARE AND RESPITE PROGRAM: 90% of the current ALS community in Georgia continues to remain in their home throughout the disease process. This becomes increasingly difficult for family caregivers because individuals will require total Activities of Daily Living (ADL) care from additional providers. This service is not covered by Medicare or private insurance companies. **The Sally Panfel ALS In-Home Care and Respite Program** provides pALS with up to 18 hours of in-home care per week, for a limited time period while families work to identify longer-term solutions. The care is provided by licensed community partners by ALS United of Georgia and eligibility is based on a needs assessment.

THE PAUL B. WILLIAMS ALS TRANSPORTATION PROGRAM: Access to quality care and research can be challenging for those impacted by ALS. As mobility declines, individuals with ALS find it difficult to attend needed appointments, or community events via traditional modes of transportation. Medicare and Medicaid are very limited regarding the coverage of non-emergency transportation. **The Paul B. Williams ALS Transportation Program** is focused on addressing transportation needs via: non-emergency transportation, van rentals, vehicle modification, and vouchers towards the purchase of accessible transportation. An application is required to receive this service.

Information is vital to families living ALS. As the body declines, it is very important to be presented with realistic expectations regarding the disease trajectory. Skilled Care Service Coordinators are available to provide ongoing consultations through our **Care Services Consultation Program**. The ongoing consultations provide the opportunity to assess, educate and empower individuals and their families to make informed decisions. The coordinators are also very instrumental in identifying and making community referrals to help meet the family's needs. ALS United of Georgia is the connection between what is needed and what is available for individuals with ALS, their families, and caregivers.

ALS United of Georgia, Inc. does not expressly endorse any of the professional providers listed here. We have simply compiled a list of the names of some of the providers that other ALS patients have used and have had a positive experience. Our hope is that this might be of some use to you and your family. Please be sure to screen all providers before hiring them.

ALS MULTI-DISCIPLINARY CLINICS IN GEORGIA

Georgians living with ALS need access to specialized care and they can get it in one place thanks to ALS Multi-Disciplinary Clinics. ALS United of Georgia Care Services team members participate in Clinic to help foster a supportive, patient-centric approach to care.

Wellstar MCG Health ALS Clinic Augusta, Georgia

Medical Co-Directors:
Dr. Michael Rivner
Dr. Benjamin Barnes

1120 15th Street
Augusta, GA 30912

706-721-2681

Emory ALS Center Atlanta, Georgia

Medical Co-Directors:
Dr. Jonathan D. Glass
Dr. Christina Fournier

1365 Clifton Rd Building B.
Atlanta, GA 30322

404-778-3444

Macon ALS Clinic Atrium Health Navicent Macon, Georgia

Medical Director:
Dr. Michael Rivner

4035 Elnora Drive
Macon, GA 31210

478-731-4095

The multi-disciplinary clinic model brings together a team of health care professionals trained to address the needs of people living with ALS. In a single visit, patients see experts in physical therapy, respiratory therapy, speech/language therapy, nursing, and social services. These experts work closely with the physicians to address and manage issues related to ALS. Having ALS United of Georgia team members at Clinic makes it easier for families to access support, assistance, and resources needed.

ALS United of Georgia's Support Group Program provides individuals living with ALS and their families the opportunity to connect with others in the community who share similar challenges and needs. The groups are designed to provide emotional and psychosocial support as well as resources on education. We believe knowing what questions to ask and where to look for resources is vital to navigating the journey of ALS.

MEETINGS:

There are many questions about

ALS.

You can help find answers.

The National ALS Registry

is a program that allows people with ALS to fight back and help defeat the disease.

We are working towards a better future for people living with ALS by:

Collecting and analyzing data

Striving to better understand the disease

Helping researchers find possible risk factors

Your participation can make a difference.

Ask us about the Registry today.
For more information,
call (800) 232-4636 or visit cdc.gov/als.

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention
Agency for Toxic Substances and Disease Registry

Enrolling in the National ALS Registry

Information to Help You Join the National ALS Registry.

Who Can Sign Up?

Any adult with ALS in the United States can join the National ALS Registry. If you have a related disease, such as PLS, PMA, or PBP, you will not be able to register at this time.

Will My Information Be Private?

Yes, all information collected by the National ALS Registry is confidential and not shared with anyone.

What Do I Need to Enroll?

- **A computer or device (e.g., tablet or phone) with internet access**
 - What if I don't have access to a computer?
 - You can ask a family member, caregiver, or friend to borrow their computer.
 - You can contact your ALS advocacy organization, and someone can help you through the process.
- **An email address**
- **Social security number (the last 5 digits only)**
 - Please note, your information is never shared with anyone.
- **Although not necessary, it can be helpful to enroll with a caregiver or family member to help.**

Where Do I Enroll?

cdc.gov/als

How Much Time Do I Need to Enroll?

Enrolling in the Registry is a quick process, and it usually takes about 5-10 minutes. You may have heard about the Registry's risk factor surveys. You do not need to complete all of these at the time of enrollment and can complete them at your leisure. Courtesy reminders will also be sent to your email address. Your progress will be saved, and you can come back to explore other parts of the Registry.

Where Can I Go for Help?

Compassionate, Comprehensive, Qualified Care

Since 2009, Agape Hospice Care has been dedicated to providing patient-centered care for individuals facing life-limiting illnesses. Our mission is to support patients on their unique journey with dignity, respect, and compassion.

Hospice care may be the right choice for individuals diagnosed with a chronic condition who are no longer seeking curative treatment. The primary focus of hospice care is to enhance quality of life, helping patients make the most of the time they have.

We are proud participants in the We Honor Veterans program, recognizing and addressing the unique needs of those who have served our country.

To learn more about our services, call our 24/7 Care Line at **(404) 763-1456**, scan the QR code, or visit us online at sagefoc.com/agape-ga.
